

JOB DESCRIPTION

Job Title: DevOps Engineer
Department: Technology Integration
Location: Invera Westmount
Reports To: Yaroslav Afanasiev

Role Summary/Purpose

Embark on an exciting journey with Invera Inc., a company dedicated to creating cutting-edge Software as a Service (SaaS) solutions for the metal industry.

We are looking for a talented DevOps Engineer to join our dynamic and collaborative environment.

In this role, you will be instrumental in managing our diverse suite of applications and leading key infrastructure initiatives.

Job Responsibilities

(include but not limited to):

- Develop, maintain, and optimize continuous integration and deployment processes for NodeJS/React, Java, and C applications.
- Lead the migration process from SVN to GIT, ensuring a smooth and efficient transition.

careers@invera.com

- Design and implement robust CI/CD pipelines to automate testing and deployment.
- Manage and optimize Kubernetes clusters, ensuring high availability and performance.
- Work closely with development teams to align DevOps strategies with project requirements.
- Monitor system performance, troubleshoot issues, and implement solutions to enhance reliability and efficiency.
- Remain abreast of the latest industry trends and technologies, continuously improving our DevOps practices.

Essential Skills and Qualifications

- Bachelor's degree in computer science, Engineering, or a related field.
- Minimum of 3 years of experience in a DevOps role, with a proven track record in managing complex infrastructures.
- Strong experience in managing NodeJS/React apps, Java apps, and C applications.
- Expertise in version control systems, specifically in migrating from SVN to GIT.
- Proficient in building and maintaining CI/CD pipelines.
- In-depth knowledge of Kubernetes, including cluster management and troubleshooting.
- Solid understanding of cloud platforms, preferably AWS, Azure, or GCP.
- Familiarity with infrastructure as code (IaC) tools such as Terraform or Ansible.
- Understanding of cloud computing concepts and paradigms.
- Excellent problem-solving skills and the ability to work in a fast-paced, dynamic environment.

Preferred Qualifications

- Certifications in Kubernetes, AWS, Azure, or Google Cloud Platform.
- Experience with containerization technologies like Docker.
- Strong communication skills and the ability to collaborate effectively with cross-functional teams.
- Eagerness to learn and adapt to new technologies and methodologies.
- Knowledge of Puppet, Jenkins is a plus.
- Bilingual in French and English.

Physical Demands

- Extended use of keyboard and computer

Working Conditions

- Position is based out of Invera's Montreal office.
- Standard hours are 9 – 5 PM Eastern.
- Occasionally will be required to work beyond regular office hours to complete critical assignments.
