

JOB DESCRIPTION

Job Title: UI/UX Designer
Department: Technology Integration
Location: Invera Westmount
Reports To: Derek Henrico

Role Summary/Purpose

Embark on an exciting journey with Invera Inc., a company dedicated to creating cutting-edge solutions for the metal industry. We are looking for a skilled UI/UX Designer to take on a significant role within our vibrant team and contribute to a variety of projects.

In this role, you will leverage your experience and talent as a UI designer to design and shape unique, user-centric products and experiences. You will collaborate with developers, application designers, and other stakeholders to iterate on various prototypes to arrive at the best possible solution. You will use various industry standard tools and procedural best practices to translate high-level requirements into interaction flows and artifacts, and transform them into beautiful, intuitive, and functional user interfaces.

APPLY NOW!

Job Responsibilities

(include but not limited to):

- Be an effective team player as part of an agile team. Collaborate closely with developers, application designers, and other team members to define and implement innovative solutions for the product direction, visuals, and experience.
- Conceptualize original ideas that bring simplicity and user friendliness to complex design roadblocks.
- Create, improve, and use wireframes, storyboards, prototypes, style guides, user flows, and effectively communicate your interaction ideas using any of these methods.
- Present and defend your design decisions to peers and executive level stakeholders. All your design decisions should be based on the overall design roadmap as well as your own design thinking and fundamental principles (i.e. color theory, visual weight, etc.).
- Conduct user research and evaluate user feedback.
- Establish and promote design guidelines, best practices, and standards.

Essential Skills and Qualifications

- Hands-on experience creating wireframes, prototypes, storyboards, user flows, etc.
- Portfolio that showcases not only a strong aesthetic sense but also a deep understanding of UX processes.
- Proficiency with Balsamiq Wireframes, Figma, Adobe XD, Sketch, InVision, or other wire-framing tools.
- Understanding of basic front-end languages: HTML5, CSS3 JavaScript.
- Up to date with the latest UI trends, techniques, and technologies.
- Creative ideas with problem solving mindset.
- Ability to work both autonomously and as part of a team.
- Strong English written and verbal communication skills.
- Be open to receiving objective criticism and improving upon it.
- Strong organizational and presentation skills.
- Work efficiently under pressure to meet deadlines.

Preferred Qualifications

- Proven experience designing user interfaces for complex web-based applications.
- Familiarity with Agile development methodologies.
- Proficiency with Photoshop, Illustrator, or other visual design tools.
- Familiarity with accessibility standards (like WCAG) and inclusive design practices.
- Understanding legal considerations in design, such as GDPR compliance, etc.
- Bilingual in French and English.

Working Conditions

- Position is based out of Invera's Montreal office.
- Standard hours are 9 – 5 PM Eastern.
- Occasionally will be required to work beyond regular office hours to complete critical assignments.
