INVEX CONFERENCE AGENDA
MAY 12 - 14, 2026 | MONTREAL, CANADA

WELCOME TO XCELERATE '26

We're delighted to welcome you to the Xcelerate INVEX Conference, our premier user group gathering and a chance to step away from daily routines to focus on the future of our metal businesses.

Over the next three days in Montreal, Quebec, leaders and senior team members from across regions and product lines will come together to connect, learn, and collaborate. This conference is designed to showcase the latest advancements in INVEX, share insight into upcoming software innovations, and explore new ideas alongside the people who use our solutions every day.

Together, we'll dive into product updates, hands-on training, and forward-looking conversations that help you get even more value from INVEX and help shape where we go next. Our goal is to align around shared priorities, spark fresh thinking, and strengthen the partnerships that drive our collective success.

We're excited for the conversations, insights, and inspiration that will move us forward, together. We're so glad you're here.

Warmly,
Invera
